## **Ref : Testimonial for Act On Dust Cleaning services.**

Before teaming up with Act on Dust cleaning services, we had all sorts of problems as a company with our cleaners. We signed up contracts with different cleaning companies who would make all sorts of promises about the quality of there services. However as soon as we signed up and the services started, it would only take a few months before there services deteriorated and went from bad to worse

I have had to change numerous companies because of this. I managed to get in touch with Act on Dust while searching for a reliable company and thank goodness I found them. They are very professional, do a superb cleaning service to our new corporate offices as well as our visa application centre and I get nothing but good reports from my managers about them.

We do not need to supervise them at all and once briefed, they would always do what they are told. They are absolutely fantastic. I cannot praise the Manager enough who actually takes time to visit us and checks to find out if we are happy on a regular basis. All the employees are well trained, wear a uniform and always have a smile on there face. They are a pleasure to work with. I would recommend them to any company that has encountered cleaning problems. They certainly do not disappoint and deliver what they promise. They are simply a great value for money.

They will always remain my first point of contact for any cleaning requirements or needs we have for the future as our company grows from strength to strength.

Well done to Srikanth and his team!!!

Yours sincerely

Office Manager  
VF Services (UK) Limited.
